## **THE VALUE AND BENEFIT WE BRING**

Predict Prevent Protect - you could call it our mantra.

As the only UK charity entirely dedicated to the prediction and prevention of breast cancer, we're committed to freeing the world from the disease altogether. Unlike many cancer charities, we're focused on preventing, rather than curing. Promoting early diagnosis, screening and lifestyle changes, we believe we can stop the problem before it starts.

And being situated at the only breast cancer prevention centre in the UK, we're right at the front-line in the fight against the disease.

## **OUR REASON FOR BEING**

To create a future free from breast cancer: Our purpose is simple: to create a future free from breast cancer, where there is no before or after diagnosis. And thanks to better predictive tools and early intervention, we truly believe that for future generations, breast cancer will be a thing of the past. This means acting now, to help more people live a life that's free from the disease. It means funding research aimed solely at preventing breast cancer. And it means creating a world where thousands of people are spared from ever experiencing the pain and suffering it causes.

Put simply, our purpose is in our name.
